11th – 12th June 2022 (Saturday & Sunday)

Venue: Gujarat Technological University, Chandkheda Campus, Ahmedabad

Company Registration Link: <https://tinyurl.com/GTUPharmacy>

About Gujarat Technological University (GTU):

GTU is the pre-eminent university of India and a well-renowned center for Internalization, Innovation, Entrepreneurship, Research, and Education.

Currently, GTU has become the largest public university of the state of Gujarat with more than 400,000 students, 17,000 faculties and 427 colleges located across the state. GTU caters

the under-graduate to doctorate programs in five major domains i.e engineering, management, pharmacy, computer application and architecture. GTU is pioneer in many unique initiatives starting from Student Start-Up Policy, Innovation and Incubation System, International Exposure to the Students & Faculties, Cross Cultural Academic Environment with Students of 48 Countries of the World, Implementation of Emerging concepts Like Design Engineering in Curriculum, Digitization of Academic and Administrative System to the Heart-Touching Social Activities by the Students.

Though very young, the university has developed very strong and efficient eco-system of teaching & learning, industry-oriented courses and syllabi, center of excellences and strong collaborations with national and international institutions which enables GTU to lead the Higher Education System of India on many fronts.

Why your organization should participate in this Placement Fair?

GTU is having the largest number of Pharmacy Colleges under its edges in the state. As of now, about 55 Pharmacy colleges of GTU are offering Diploma, Bachelor, Masters and Pharma. D Program with an annual intake of more than 6000 students across the branches.

Hence, you will get an opportunity to select the most talented pharmacists from a large pool of candidates under one roof at GTU.

Participating in centralized pharmacy placement fair at GTU may save your precious resources in terms of manpower and time.

Unique features of GTU Pharmacy program

GTU is taking utmost care to enhance the quality of Pharmacy Education and Research and trying to Excel in the same. Few important and unique features of GTU pharmacy program includes:

- Frequently updated syllabus with help of industry and academic experts as per the changing need of industry.
- GTU organizes the International Experience Program (**IEP**) at Laurentian University, Canada for B.Pharm students where, the students learn about advanced research and subject content by the foreign professors.
- M. Pharm students have to study five patents as a part of his/her dissertation work and have to prepare “**Patent Search Analysis Report (PSAR)**”
- M. Pharm students have been evaluated at centralized level examination twice in a year for their dissertation work, wherein experts from nationally reputed institutes like CDRI, CSIR, NIPER, SRMC, JSS, NMIMS, ICT, BHU and like institutes are invited along with Industrial Experts and International Experts from LU, Canada and UWS, Australia.
- For creating the industry orientation and developing industry – ready skills the students of a Finishing School model is developed.
- GTU also have the strong presence and support system for IPR where, students are made aware and supported for patent filing.
- GTU curriculum is having large pool of Elective subjects. As of now, about 16 electives are offered as a part of B.Pharm program which enable students to excel in niche domains.
- Industry based projects, 100 activity points, industry visits are integral part of the pharmacy curriculum.
- To develop the essential values, develops inner character, strengthens morality, and nourishes constructive and creative thinking, the students of pharmacy are provided with elective subjects of Contributor Personality Development Program (CPDP) and Integrated Personality Development Course (IPDC).
- All the final year students are oriented by Pre-Placement training (organized in a Month prior to the final placement fair) for soft-skill, interview skills and technical aspects of pharmacy industry job roles.
